CODAR SeaSonde® Basic Training Event - Fall 2023

5-8 December 2023

Mountain View, California USA

Come learn at the SeaSonde Basic Training Event - Fall 2023. Training will cover different aspects of SeaSonde technology, software and data processing/analysis, hardware, basic troubleshooting and best practices. Software sessions will focus on the latest Release 22 software suites, valuable content for both new as well as experienced SeaSonde operators who want guided introduction to these newest releases.

Event will take place at CODAR headquarters in Mountain View, California, giving attendees opportunity to see CODAR facilities and meet in person many of the CODAR staff engineers, scientists, sales and administrative staff.

Advance registration is required. Deadline to register is 7 November 2023 and only a limited # of spots are available. This is an in-person only event, no remote or virtual participation.
